SECURITY AND ASSISTANCE ON YOUR PHONE

As a farmer you're well aware: If you live on a farm in a rural area, you are particularly vulnerable to robberies and attacks – the remoteness of farms and the long response time provide attackers with the opportunity to remain longer, and victims can be subjected to a higher degree of violence than in urban areas where security forces are quicker to the rescue.

TECHNOLOGY TO THE RESCUE

The ResQ app provides a facility where the client can add 3 emergency contact numbers. These numbers will be activated and notified when the panic button is activated.

HELICOPTER EMERGENCY SERVICE

Your ResQ app links you with the emergency medical specialists who will respond with an immediate return call to provide life-saving advice and arrange the dispatch of appropriate emergency medical services subject to flight criteria being met.

- 24-hour availability (night included).
- Helicopter ambulance fully equipped with Advanced Life Support Equipment and Registered in accordance with the CAA's Part 138 Regulations.
- Dedicated Advanced Life Support Paramedics.
- Medical Consumables and Medication.
- 24-hour Call Centre managing appropriate emergency dispatch operations and protocols.
