The state of Food security and nutrition in the world 2022

CONTRIBUTING TOWARDS THE IMPACTFUL CULTURE OF MAKING A DIFFERENCE.

The year 2022 was a landmark year for us post covid19: however, AFGRI continued to make strides toward food security.

AFGRI has always prioritized sustainability, but this year we were able to take it further by increasing our reach into communities around South Africa despite economic development constraints.

Strengthening our partnerships with all stakeholders across all levels remains a priority, to ensure impactful economic stimulation. Our communities and farmers are key stakeholders in addressing food insecurity and education, which is core to our mission. We, therefore, give accolades to the leadership and employees for steering the critical mandate of food security and on how they can further contribute to this impactful culture of making a difference.

Lemang Agricultural Services is forging ahead with the development of new-era farmers notwithstanding the volatility of our economy. Steadfast agronomy services, mentorship and support system within our value chain provided our stakeholders with consistent business support.

Our farmers experience improved yields supported by AgriSeta accredited programmes in collaboration with practical planting methods undertraining at our training facility at Vasfontein.

We give accolades to the leadership and employees for steering the critical mandate of food security by engaging stakeholders on how they can contribute towards this impactful culture of making a difference.

We pride ourselves on being a good steward of food security, poverty alleviation and the transfer of agricultural skills. Through various interventions, we continue to prioritise awareness on these imperatives to stimulate self-sustainable communities moreover, aid long-term opportunities that mitigate poverty.

SCHOOL PARTNERSHIPS

POVERTY ERADICATION

INSPIRE YOUTH AND CHILDREN

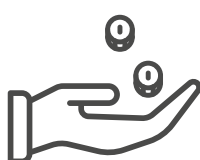

16%
REDUCTION
in hunger of 936
rural farm families

3,280
COMMUNITY
MEMBERS
supplied with weekly
organic vegetables

100%
SCHOOL
ATTENDANCE

R197,600
INCOME GENERATED
from the sales of pickled jam, vegetables
and vegetable soup.

BACKYARD GARDENS
Unemployed and seasonally employed mothers were assisted with
developing and growing vegetables from their backyard.

Benefits of income generated:

Assisted the children to compete in the South African Judo championship

Achievements:

The children won 2 gold, 4 silver and 4 bronze medals at the South African Judo championship

Job creation

A group of **22 previously unemployed farm women** were skilled to maintain the garden; grew and processed pickled vegetables and a variety of jams.

They additionally sold vegetable soup and donated some to the elderly and fragile community members.

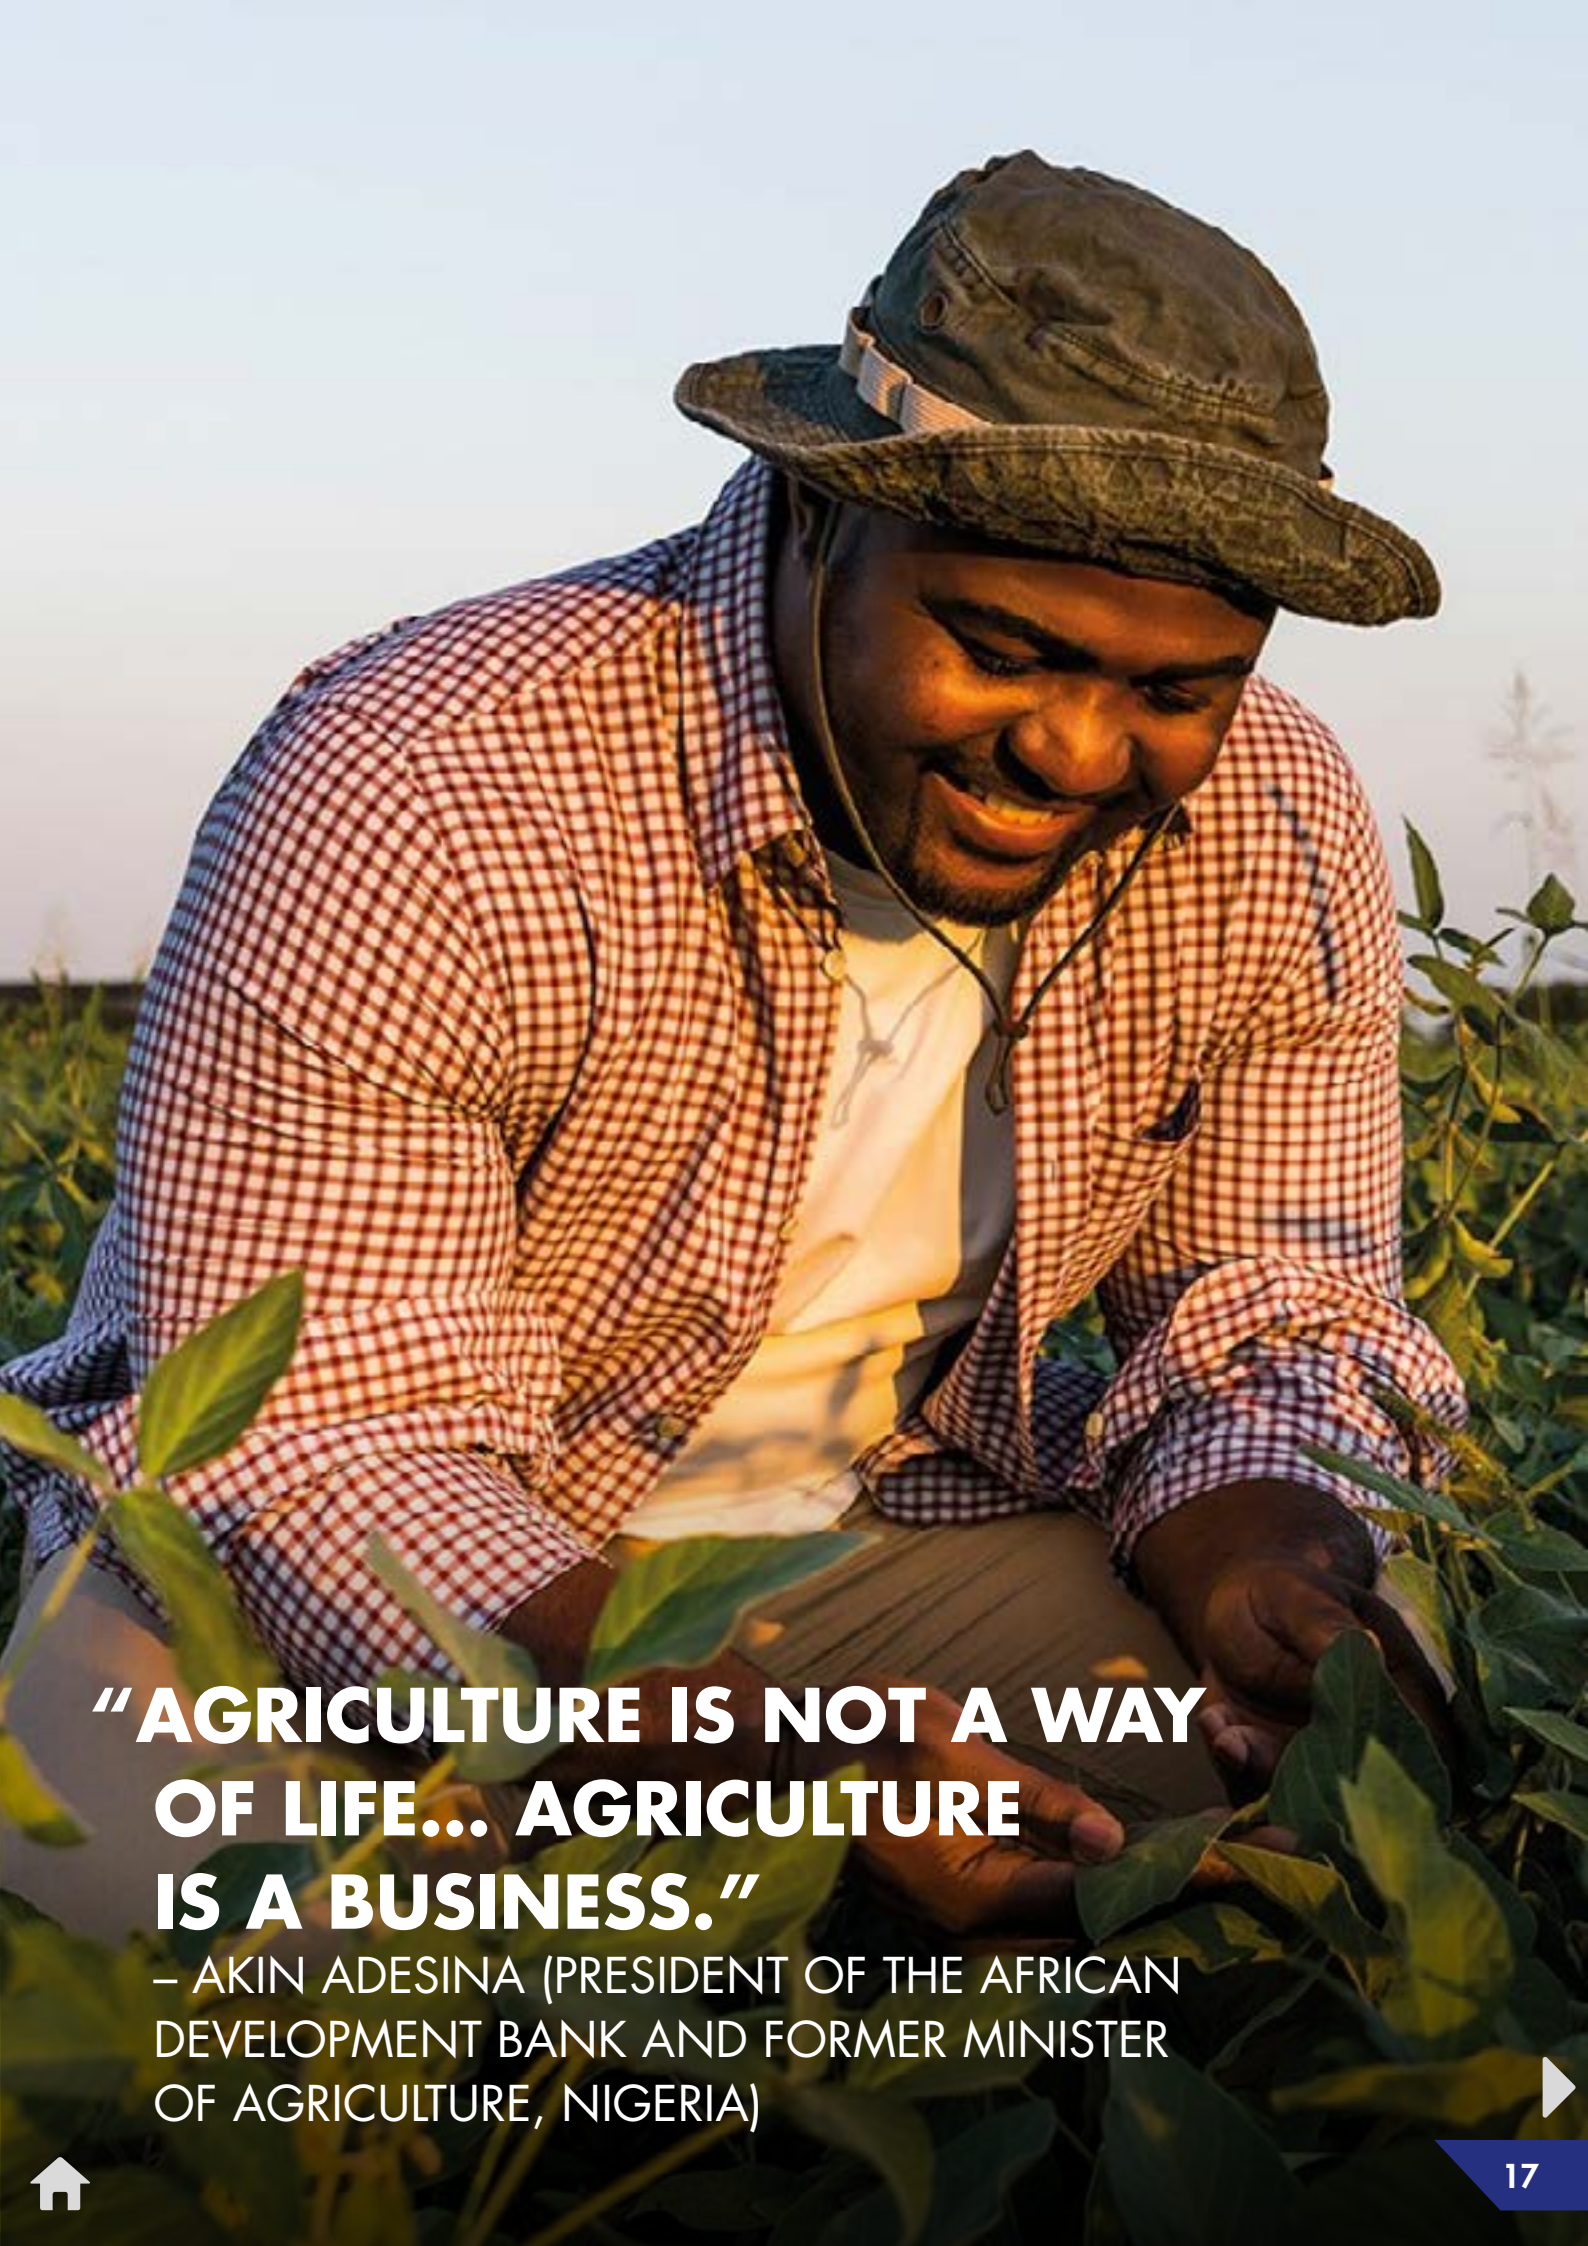

ENTERPRISE & SUPPLIER DEVELOPMENT

Our model addresses a multiple process approach for identification and establishing a successful project with new era farmers and project management to create real impact and wealth creation in the agricultural sector.
