

# LEAVE YOUR AGRICULTURAL INSURANCE IN OUR HANDS

## UNIGRO INSURANCE

**UNIGRO Insurance has vast knowledge of and experience in all aspects of short-term and life insurance.**

### UNISERV Equipment Service Plan

The UNISERV product is a service plan for your John Deere and JCB equipment and comes standard with the purchase on all new 6 series tractors and up. It is available as an option on tractors smaller than the 6 series as well as Combine Harvesters, self propelled sprayers and JCB Equipment. The service plan runs for a period of three years or 2000 hours, whichever condition is met first.

#### The benefits of the plan include:

- Service of equipment not dependant on cash flow
- Service plan can be capitalised on purchase
- Regular services will enhance the second hand value of the equipment
- Trained John Deere technicians can now service your equipment
- Increases the uptime of the equipment
- Tax deductible

Our relationships with all major insurers, along with our ability and experience to understand risks, provide us with a competitive edge.

We are able to assist clients in identifying potential risks and provide tailor-made solutions to mitigate those risks. We pride ourselves in providing quality service not only to small commercial and industrial clients but also to larger commercial and corporate clients, especially those involved in the agricultural sector. Our ability to issue policy documentation on-site enhances our service offering, a function endorsed by a number of major insurers.

## Farm & game lodge insurance

Essential insurance for every farmer and every farm. Cover against fire, flood, malicious damage, third party damage liability, vehicles and equipment.

## Hunters' insurance

Insure your rifle, bow, shotgun, handgun or scope from as little as R50 per month and get free liability insurance worth R10 million.

## Risk financing, advice and solutions

UNIGRO can assist the farmer in finding ways to mitigate losses and reduce the Insurance spend by creating self-funding solutions and by the setup of off balance sheet Cell Captives, thereby creating self-insurance structures for Crop and Assets Insurance.
